Cherie L. Weinstein

Dear Dr Price -

When I first came to see you many years ago, I told you that I wanted my skin to look good enough to be comfortable to not have to always wear make up. I've achieved that.

(though in social situations, I still rely on it.)

But this is a thank you for giving me skin that I'm always complimented on. It's amazing that all the \$\$ invested in your office really do pay off. →

Yesterday, I had a "ladies afternoon" and I had 5 separate compliments - "glowing" "radiant," "beautiful," all over the course of the afternoon.

So thanks for helping me age well - for keeping my skin so great!

Here's a valentine to my great dermatologist! ♡
